Directors' Review

The Board of Directors of Azgard Nine Limited ("the Company") hereby presents the un-audited interim financial statements for the nine months ended September 30, 2010.

Principal Activities

The company's principal business activity is the vertically integrated manufacture and marketing of denim focused Textile and Apparel products from raw cotton to retail ready goods. The Company, despite the extreme circumstances cited below, maintains its prominent position in the denim industry.

Azgard Nine, through its subsidiaries Agritech Limited AGL (formerly Pak American Fertilizers Limited) and Hazara Phosphate Fertilizers (Pvt.) Limited (HPFL), is also engaged in the manufacturing and marketing of both Nitrogenous and Phosphatic fertilizers.

Textile and Apparel

The global financial crisis still continues to leave its negative impacts on nearly all business sectors. Furthermore, high interest rates, persistent energy shortage, rising utility costs, high raw material costs of cotton and yarn, and a disturbed law & order situation created a difficult environment for the business.

While the overall Textile and Denim markets are fundamentally sound with good volumes, the Company's production has been operating at only partial capacity due to a lack of working capital. Lack of availability of cotton pledge lines also hampered efforts to build adequate cotton stocks during the year. The Company was therefore exposed to the very high cotton prices that were prevailing during this period. The reduced level of production and the high cost of cotton have had a very negative impact on the results of the company.

The Company in line with its practice in the past is putting in all possible efforts to achieve maximum manufacturing and operational efficiencies that lead to increase in overall profit margins. The future results are very heavily dependent on the timely availability of working capital and cotton pledge facilities which are currently under negotiation with the lenders as part of the ongoing re-profiling exercise. The Company is hopeful that it would receive the required support from the financial institutions enabling the Company to run its operations smoothly and achieve its targeted results.

Fertilizers

The Company's subsidiary, Agritech Limited, operates the newest and most efficient Urea Plant in the country. Furthermore AGL through its subsidiary, HPFL, is the largest manufacturer of Granular Single Super Phosphate (GSSP) fertilizer in Pakistan. This makes AGL a prominent player in the sector as a diversified fertilizer producer, manufacturing and marketing both nitrogenous and phosphatic fertilizers.

The management has taken up the matters relating to the present liquidity issues with the providers of debt finances for re-profiling of some of its existing financial obligations. Formal agreements are in finalization stages the expectation is that they should be signed in due course of time.

Directors' Review

As part of the ongoing process of re-profiling / restructuring of the existing debt, the Company is also in the process of disinvesting the major portion of its investment in AGL. Various parties have shown an interest in the purchase of the said investment, and the process for the sale of this is already in progress and moving forward smoothly.

Directors' Review

Future Market Outlook

The textile sector as a whole continues to face difficult challenges and while it is too early to forecast exact consequences the Company's profitability in the coming few months is expected to remain under pressure due to inflating cotton and other raw material prices, high interest rates and increased cost of utilities. There are extended periods of load shedding for electricity and gas, and the situation is further deteriorating as a result of recent floods which are causing serious damage to the country's economy.

In the face of such adversities the Company has intensified its efforts to reduce costs, maximize synergies and increase service levels in an effort to increase manufacturing efficiencies, enhance the product value and exceed customer expectations. The management is hopeful that the Company would succeed in recovering from this depressed phase and there are positive indications for improvement in the demand of its products. However, this is dependent on the timely availability of working capital facilities by the lenders in order to be able to run the operations of the company at full capacity.

It may be expected that after the financial re-profiling is complete, and as the working capital lines expand, the company will be able to increase its production and secure a satisfactory financial performance.

Acknowledgment

The Board takes this opportunity to thank the Company's valued customers and the financial institutions whose faith and support over the years has fostered mutually beneficial relationships which has played a pivotal role in the growth of the Company. The board also wishes to place on record its appreciation for the hard work and commendable services rendered by the Company's staff and workers.

On behalf of the Board

Notes to the condensed interim financial information for nine months ended September 30, 2010

1 REPORTING ENTITY

Azgard Nine Limited ("the Company") is incorporated in Pakistan as a Public Limited Company and is currently listed on Karachi Stock Exchange (Guarantee) Limited. The Company is a composite spinning, weaving, dyeing and stitching unit engaged in the manufacture of yarn, denim and denim products. The registered office of the Company is situated at Ismail Aiwan-e-Science, off Shahrah-e-Roomi, Lahore.

BASIS OF PREPARATION

2.1 Statement of compliance

This condensed interim financial report of the Company for the nine months period ended September 30, 2010 is not audited and has been prepared in accordance with the requirements of International Accounting Standard 34 - Interim Financial Reporting, as applicable in Pakistan and does not include all the information as is required to be provided in a full set of annual financial statements. This condensed interim financial information should be read in conjunction with the financial statements of the Company for the year ended December 31, 2009.

2.2 Basis of measurement

This condensed interim financial information has been prepared under the historical cost convention except for certain financial instruments at fair value or amortized cost and certain items of property, plant and equipment at revalued amounts. In this financial information, except for the amounts reflected in the cash flow statement, all transactions have been accounted for on accrual basis.

2.3 Judgements, estimates and assumptions

The preparation of financial information requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. The estimates and associated assumptions and judgements are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the result of which forms the basis of making judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised and in any future periods affected.

2.4 Functional currency

This financial information is prepared in Pak Rupees which is the Company's functional currency.

Notes to the condensed interim financial information for nine months ended September 30, 2010

3 SIGNIFICANT ACCOUNTING POLICIES

The accounting policies adopted for the preparation of this condensed interim financial information are consistent with those applied in the preparation of the preceding annual published financial statements of the Company for the year ended December 31, 2009.

CHIEF EXECUTIVE

Notes to the condensed consolidated interim financial information for nine months ended September 30, 2010

This interim financial information report is not audited and has been presented in condensed form and does not include all the information as is required to be provided in a full set of annual financial statements. This condensed interim financial report should be read in conjunction with the audited financial statements of the Group for the year ended December 31, 2009.

Basis of measurement 2.2

This condensed interim financial information has been prepared under the historical cost convention except for certain financial instruments at fair value or amortized cost and certain items of property, plant and equipment at revalued amounts. In this financial information, except for the amounts reflected in the cash flow statement, all transactions have been accounted for on accrual basis.

Judgements, estimates and assumptions

The preparation of financial information requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. The estimates and associated assumptions and judgements are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the result of which forms the basis of making judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised and in any future periods affected.

Functional currency

This financial information is prepared in Pak Rupees which is the Group's functional currency.

SIGNIFICANT ACCOUNTING POLICIES

The accounting policies adopted for the preparation of this condensed interim financial information are consistent with those applied in the preparation of the preceding annual published financial statements of the Group for the year ended December 31, 2009.
